

Remote LPC LE

LIQUID PARTICLE COUNTER

Ensure that the DI Water being supplied to your process always maintains a certain level of cleanliness. These units can be easily setup into Facility Monitoring Systems and can also be easily cleaned and maintained.

The Remote LPC LE has a range of 1.0 - 50 microns or 1.0 - 200 microns particle sizes in liquid, with a flow rate of 30 ml per minute. The sensor is designed to accurately measure up to 8 channels of simultaneous particle count data.

This liquid particle counter was created for continuous, 24 hour per day, 7 days per week operation. The instrument provides versatile mounting options allowing installation where space is at a premium.
